

Temspec is Closed Due to Covid 19 Virus Until April 6th, 2020

With the continued spread of COVID-19 and the safety and well-being of our communities and employees, Temspec has decided to close our manufacturing facility effective Monday March 23rd, 2020 with a plan to resume operations Monday April 6th, 2020.

A skeleton staff will be in daily to maintain customer contact via phone and e-mail and e-mail will continue to be monitored if staff work remote.

Thank you for your continued trust and patience as we work through this difficult time.

Best regards,
Rob Clements
Director of Sales & Marketing
