

Position: **Solderer/Brazer**  
Location: **Mississauga, Ontario**

Reports to: Operations Supervisor  
Employment Type: Full Time  
Job Category: Operations  
Industry: Commercial and Institutional HVAC

### **Company Overview:**

Temspec Inc. is an original equipment manufacturer (OEM) of heating and cooling equipment for the North American school and high-rise condominium / hotel markets. We are a family owned business who prides itself on the quality of our products, our diverse company culture, and friendly, family-oriented atmosphere.

We believe in making Living and Learning Better by providing Quiet, Efficient HVAC products that work Perfectly in the spaces our Customers Create – Quickly and Without Surprises.

Reporting to the Operations Supervisor, the Solderer/Brazer will solder or braze copper pipes and components onto HVAC subassemblies according to drawings and specifications. He/she prepares material by grinding, cutting and bending pieces of copper to ensure a proper fit when assembled.

### **Primary Roles & Responsibilities:**

- Review and interpret drawings and work orders in order to determine components, valves and soldering required to complete work according to job specifications
- Assemble, align, and clamp various sized copper pipes and valves onto coil or riser units to solder and/or braze components
- Complete tasks while ensuring performance targets and Temspec's quality standards are maintained
- Maintain proper and accurate documentation of production
- Performs regular equipment operation checks and reports maintenance requirements or defects to the Supervisor
- Works in accordance with Health and Safety regulations, Company rules, policies and procedures
- Maintain a clean, organized and safe work area
- Perform other duties as assigned

### **Qualifications:**

- High School Diploma or equivalent education
- Ability to read, interpret blueprints, drawings and work samples
- 1 - 3 years of experience with Oxy-Acetylene Soldering/ Brazing. Recent graduates will be considered
- Must be able to use hand and pneumatic tools
- Good hand and eye coordination
- Good written and verbal communication skills
- Ability to stand for extended periods of time
- Ability to perform duties as required with minimal supervision
- Must be able to lift up to 50 lb.
- Team player with a positive "Can Do" attitude
